Option 4 ID : 38786827

Status : Answered

Chosen Option : 1

Comprehension:

Read the given passage and answer the questions that follow.

Numerous studies have been undertaken which show that gardening offers many health related benefits. The most obvious benefit of gardening is that it can be a great way to alleviate stress. Work, family commitments and social engagements are just some of the things that take up chunks of peoples' lives. Planning the garden and then caring for the garden offers the gardener a simple and inexpensive way to unwind and relax. Gardening can help a person clear the mind.

Another health-related benefit of gardening is that when people tend to their gardens, they are getting exercise. Even an activity as simple as gardening can contribute towards weight loss. Gardening gets a person outdoors, exposed to natural air and refocused on a pleasant activity.

Gardening also offers nutritional benefits to those who choose to plant a vegetable garden. Creating a vegetable garden is a way of ensuring that there is a continuous supply of fresh vegetables to consume. Vegetable gardeners know exactly where their produce is coming from and they also know exactly what chemicals were used to grow the produce. Eating more vegetables, and especially home-grown vegetables, is a simple way to ensure that a body is getting a proper balance of vitamins and nutrients.

And finally, some studies even report that people who are exposed to gardens and gardening recover more quickly from illnesses. It seems that for many people, gardening is just what the doctor ordered.

SubQuestion No : 8

Q.8 Select the most appropriate title for the passage.

- Ans
- 1. How to Deal with Stress
 - 2. How to Lose Weight
 - 3. Benefits of Gardening
 - 4. Organic Farming

Q.72 A rectangular channel section has a width of b in which depth of flow y is flowing. Which of the following conditions should be satisfied for maximum discharge through this rectangular channel section?

Ans 1. $b = 2y$ and hydraulic radius $R = y/3$

2. $b = 2y$ and hydraulic radius $R = y/2$

3. $b = y$ and hydraulic radius $R = y/4$

4. $b = y$ and hydraulic radius $R = 2y$

Comprehension:

Read the given passage and answer the questions that follow.

Life cannot be imagined without water, but clean and adequate water is still not accessible to most of the people in India. India receives 90 per cent of the water from major or medium rivers. It has 14 major rivers each having a catchment area of 20,000 sq. km and above; while there are 44 medium rivers with a coastline between 2,000 and 20,000 sq. kms. Then, there are 53 small rivers each with catchment area of 2,000 sq. kms.

According to the 2011 census, annual per capita water availability in the country decreased to 1,545 cubic meters from 1,816 cubic meters as per the 2001 census. At present, this situation is even more worrisome. Scientists believe that, by 2050, there will be a 30 per cent decrease in the availability of water per person. The World Health Organization (WHO) recommends the availability of 200 litres of water per person per day in urban areas. On the contrary, 140 litres of water is supplied per person per day in the country.

Water resources in India are predominantly dependent on the monsoon. India receives an average rainfall of 4,000 BCM (Billion Cubic Meter) every year from the rain, but most of it is vapourised and goes down the drains. Statistics show that a dearth of storage procedures, lack of adequate infrastructure and inappropriate water management have created a situation where only 18-20% of the water is actually used. The remainder just gets wasted, aggravating the problem of ground water depletion.

Our country's economy primarily rests on agriculture. Agriculture contributes 40 per cent to the GDP of the country, and accounts for 60 per cent of the total export revenues. One of the major reasons for the water crisis in the country is that as the area of irrigated land has increased, the level of groundwater has declined.

SubQuestion No : 8

Q.8 The word 'dearth' as used in the passage means:

Ans 1. shortage

2. crisis

3. decline

4. availability

Chosen Option : 1

Comprehension:

Read the given passage and answer the questions that follow.

Life cannot be imagined without water, but clean and adequate water is still not accessible to most of the people in India. India receives 90 per cent of the water from major or medium rivers. It has 14 major rivers each having a catchment area of 20,000 sq. km and above; while there are 44 medium rivers with a coastline between 2,000 and 20,000 sq. kms. Then, there are 53 small rivers each with catchment area of 2,000 sq. kms.

According to the 2011 census, annual per capita water availability in the country decreased to 1,545 cubic meters from 1,816 cubic meters as per the 2001 census. At present, this situation is even more worrisome. Scientists believe that, by 2050, there will be a 30 per cent decrease in the availability of water per person. The World Health Organization (WHO) recommends the availability of 200 litres of water per person per day in urban areas. On the contrary, 140 litres of water is supplied per person per day in the country.

Water resources in India are predominantly dependent on the monsoon. India receives an average rainfall of 4,000 BCM (Billion Cubic Meter) every year from the rain, but most of it is vapourised and goes down the drains. Statistics show that a dearth of storage procedures, lack of adequate infrastructure and inappropriate water management have created a situation where only 18-20% of the water is actually used. The remainder just gets wasted, aggravating the problem of ground water depletion.

Our country's economy primarily rests on agriculture. Agriculture contributes 40 per cent to the GDP of the country, and accounts for 60 per cent of the total export revenues. One of the major reasons for the water crisis in the country is that as the area of irrigated land has increased, the level of groundwater has declined.

SubQuestion No : 10

Q.10 By 2050, the decrease in availability of water per person is estimated to be:

Ans 1. 20%

2. 40%

3. 30%

4. 50%

Q.43 Moment of inertia of a triangle about its centroid is given by:

(Where B = base width and H = height of the triangle)

- Ans
- 1. $\frac{HB^3}{36}$
 - 2. $\frac{BH^3}{12}$
 - 3. $\frac{HB^3}{12}$
 - 4. $\frac{BH^3}{36}$

Q.50 The following are the acceptance criteria for flexural strength of concrete. Thus, the concrete complies with the specified flexural strength.

Criterion-1: The mean strength determined from any group of four consecutive test results exceeds the specified characteristic strength by at least 0.3 N/mm^2 .

Criterion-2: The strength determined from any test result is not less than the specified characteristic strength of 0.3 N/mm^2 .

Which of the above two criteria is correct?

- Ans**
- ✔ 1. Both the criteria are correct.
 - ✘ 2. Both the criteria are incorrect.
 - ✘ 3. Criterion-1 is incorrect and criterion-2 is correct.
 - ✘ 4. Criterion-1 is correct and criterion-2 is incorrect.

Q.56 Select the INCORRECT statement with respect to the hydraulic gradient line when the fluid is flowing in the pipe.

- Ans**
- 1. The hydraulic gradient line is always below the total energy gradient line.
 - 2. The hydraulic gradient line may rise or fall, depending on changes in the pressure.
 - 3. The hydraulic gradient line always drops in the direction of the flow because of loss of head.
 - 4. The slope of the hydraulic gradient line is equal to the slope of the energy gradient line for a pipe of uniform cross-section.

Q.98 Determine the rotation and the deflection at the free end of the cantilever beam subjected to uniformly distributed load of 6kN/m shown in the following figure, using the moment area method. (Where E = Young's modulus of elasticity and I = moment of inertia)

Ans 1.

Rotation at free end = $\frac{81}{EI}$, clockwise and deflection = $\frac{245}{EI}$ downward

2.

Rotation at free end = $\frac{27}{EI}$, clockwise and deflection = $\frac{60.75}{EI}$ downward

3.

Rotation at free end = $\frac{47}{EI}$, clockwise and deflection = $\frac{160.75}{EI}$ upward

4.

Rotation at free end = $\frac{27}{EI}$, anti – clockwise and deflection = $\frac{60.75}{EI}$ upward

Comprehension:

Read the given passage and answer the questions that follow.

Jesse Owens was a track and field star. His most famous moment came in the 1936 Olympics when he won four gold medals – much to the annoyance of Adolf Hitler and the Nazi party who hoped the Olympics would be a showcase for Aryan supremacy. In his later life, Jesse Owens became a goodwill ambassador for America and athletics.

Jesse Owens was born in Alabama and the family moved to the Granville section of Cleveland. His early life was marked by poverty, and he was forced to take many menial jobs such as delivering goods and working in a shoe repair shop. However, he was able to develop his passion for running and athletics; from an early age, he was identified as having great potential talent.

Jesse Owens rose to national prominence in 1933, when he equalled the world record (9.4 seconds) for the 100 yard dash. One of his great athletic feats occurred in 1935; during one particular track meet, he broke three world records. This included the long jump (Owen's record stood for 25 years), 220 yards and 220 yards hurdles. He also equalled the record for 100 yards. Jesse Owen's finest moment came in the 1936 Berlin Olympics. He won Olympic gold in the 100m, long jump, 200m and 4*100 metres relay. (An achievement not matched until Carl Lewis in 1984). It was a convincing rebuttal to the Nazis' hopes of displaying 'Aryan superiority'. Hitler gave medals to German athletes on the first day, but, after Owen's victories, decided not to give any more medals.

SubQuestion No : 8

Q.8 The word 'rebuttal' means:

- Ans
- 1. prominence
 - 2. refutation
 - 3. approval
 - 4. annoyance

Comprehension:

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या.

अनेकदा प्रहरभर रात्र उरलेली असतानाच मी जागा होतो. तशी जाग आली की उठून चूळ भरायची आणि पेलाभर पाणी प्यायचे, त्यानंतर परत अंधरुणावर पडायचे असा माझा क्रम असतो. त्या रात्रीसुद्धा मला जाग आली, पण उशीला डोके टेकल्याबरोबर जाणवले की काहीतरी कमी पडते आहे.

मला अचानक माझ्या लहानपणाची आठवण झाली. आमच्या कोकणातील घर त्यावेळी माणसांनी भरलेले होते. आमच्या आई-वडलांबरोबर मी आणि माझी थोरली बहीण कोकणातील घरी गेलो होतो. त्या घरात काकू आणि आजी होत्या. गोठ्यात चार पाच गुरे होती. हाकेच्या अंतरावर आमच्या भागेल्याचे खोपट होते. चुलीपाशी लेकरवाळी मांजरी होती. घराभोवती अनेक फुलझाडे होती. पुढील दाराच्या लांबरुंद अंगणातल्या वृंदावनात काळी तुळस होती. आणि पाटाचे पाणी आमच्या अंगणातून झुळझुळत वाहत होते. गौरी गणपतीला कोकणात येऊन नंतर दिवाळी संपली की आम्हाला पुण्याला परतायचे होते. त्यावेळी हिंदळे गावातून देवगडपर्यंत बैलगाडीने, नंतर देवगड ते मुंबई आगबोटीने आणि शेवटी मुंबई-पुणे झुकझुक गाडीने आमचा प्रवास होत असे.

SubQuestion No : 18

Q.18 लेखकाला देवगड ते मुंबई प्रवास कसा करावा लागे?

- Ans
- 1. बैलगाडीने
 - 2. आगबोटीने
 - 3. घोड्यावरून
 - 4. मोटारीने

Q.53 Which of the following statements are correct/incorrect with respect to gradients used in railways?

Statement A: Pusher gradient is flatter than ruling gradient and they are provided to reduce the length of the railway line so that the overall cost also reduces.

Statement B: Momentum gradient is flatter than ruling gradient and they are provided in valley portion where a falling gradient is followed by a rising gradient.

- Ans
- 1. Both the statements are correct
 - 2. Statement A is correct and B is incorrect
 - 3. Statement B is correct and A is incorrect
 - 4. Both the statements are incorrect

Q.58 Identify the correct statement with respect to Steel Fibre Reinforced Concrete (SFRC).

- Ans
- 1. SFRC offers better flow ability when compared to other special concrete types, so that it can be used at locations where reinforcement congestion occurred.
 - 2. Energy required to compact SFRC is less than self-compacting concrete.
 - 3. Geopolymer concrete is more ductile in nature when compared to SFRC.
 - 4. SFRC is tougher when compared to plain cement concrete.

Q.61 Which of the following statements are correct/incorrect with respect to direct and bending stresses in vertical members?

Statement A: Eccentric load acting on vertical members produces direct stress as well as bending stress.

Statement B: If axial compressive (direct) stress is more than bending stress, then the stress throughout the section will be tensile in nature.

Ans

1. Statement B is correct and A is incorrect

2. Both the statements are correct

3. Both the statements are incorrect

4. Statement A is correct and B is incorrect

Q.65 Identify the INCORRECT statement with respect to flow of water through pipes.

Ans 1. The major energy loss in a pipe flow is loss due to friction.

2.

Darcy-Weisbach formula can be used to calculate major energy losses in a pipe flow.

3.

In a pipe flow, if the cross section of the pipe is partially full, the flow behaves like an open channel flow.

4.

Bend provided along the alignment of a pipeline is not a reason for energy loss in a pipe flow.

Q.78 Identify the INCORRECT statement with respect to Tacheometric surveying.

Ans 1. Stadia hairs are not required in the tangential system.

2.

The stadia method is based on the principle that the ratio of the perpendicular to the base is constant in similar isosceles triangles.

3. Fixed hair method is also known as subtense method.

4.

The principle of subtense method is that the staff intercept 'S' forms the fixed base distance, while the tacheometer angle β changes with the staff position.

Q.85 Identify the INCORRECT statement with respect to the concepts/theorems followed in the moment distribution method used for the analysis of indeterminate structures.

Ans 1.

While distributing the moments in a rigid joint, if one end of the member is not restrained then its stiffness should be multiplied by $\frac{1}{4}$.

2.

When the member is fixed at one end and a moment is applied at the other end which is simply supported or hinged, the moment induced at the fixed end is one half of the applied moment.

3.

In a fixed beam, if the support settles/subsides/sinks by an amount Δ , the moment required to make the ends horizontal is $\frac{6EI\Delta}{l^2}$.

4.

If a moment is applied in a stiff joint of a structure, the moment is resisted by various members in proportion to their respective stiffness

Q.92 Which of the following statements are correct/incorrect with respect to maximum effective slenderness ratio for tension members (steel sections)?

Statement A: As per IS 800:2007, the maximum effective slenderness ratio for members which are always under tension (other than pretensioned members) is 400.

Statement B: In order to provide adequate rigidity to prevent undesirable lateral movement or excessive vibrations, design specifications usually limit slenderness ratio for tension members.

- Ans**
- 1. Both the statements are correct
 - 2. Statement B is correct and A is incorrect
 - 3. Statement A is correct and B is incorrect
 - 4. Both the statements are incorrect

Comprehension:

Read the given passage and answer the questions that follow.

Charlie Chaplin took his first bow on stage when his mother made her last appearance. It happened when her voice broke during a song. Her son stepped on stage and sang a popular song. That's when a star was born.

Through all these years of success, Charlie never forgot his troubled childhood. It made him recall a Christmas when he was denied two oranges and his bag of sweets for breaking a rule at the orphanage he went to after his mother's death. It would have broken his heart, if the other children had not offered him a share of theirs. Spontaneously, the adult Chaplin gifted the orphanage with a motion picture machine and insisted that each child should have as many oranges and sweets as they pleased.

SubQuestion No : 8**Q.8 Charlie Chaplin first took a place on the stage:**

- Ans 1. to sing in place of his mother
 2. to entertain kids at the orphanage
 3. during the shooting of a motion picture
 4. after his mother passed away

Q.66 Match the following tools and functions in railway track maintenance.

Tools	Functions
1. Cant board	A. To check the squareness of sleepers
2. Canne-a-boule	B. To check the gauge as well as the cross level
3. Gauge-cum-level	C. To check the difference in cross levels or the superelevation
4. T-square	D. A modern equipment used to assess the voids under the sleepers

Ans ✗ 1. 1-D, 2-C, 3-B, 4-A

✗ 2. 1-C, 2-A, 3-B, 4-D

✓ 3. 1-C, 2-D, 3-B, 4-A

✗ 4. 1-B, 2-D, 3-C, 4-A

Q.68 According to IS 456-2000, the deflection of an RCC beam of span L including the effects of temperature, creep and shrinkage occurring after the erection of partitions and the application of finishes should not normally exceed:

- Ans
- 1. $L/250$ or 10 mm, whichever is less
 - 2. $L/350$ or 20 mm, whichever is less
 - 3. $L/450$ or 25 mm, whichever is less
 - 4. $L/500$ or 30 mm, whichever is less

Q.73 A simply supported beam of 5 m span is subjected to a clockwise moment of 15 kN-m at a distance of 2 m from the left end as shown in the given figure. Find the bending moment at C (both left and right of C).

Ans 1.

BM Left side of C = -3 kN-m and BM Right side of C = +3kN-m

2.

BM Left side of C = -6 kN-m and BM Right side of C = +9kN-m

3.

BM Left side of C = -7.5 kN-m and BM Right side of C = +3kN-m

4.

BM Left side of C = -30 kN-m and BM Right side of C = +45kN-m

Comprehension:

Read the given passage and answer the questions that follow.

Last summer, I boarded a flight from the IGI airport. The airplane waited at the runway in a queue to take off for one hour, with the engines running. A lot of aviation fuel was wasted. Carbon dioxide, nitrogen oxide and water vapour were released into the atmosphere. With the entry of many players in the aviation industry, pollution has reached the skies as well. With the number of airline flights worldwide growing and expected to skyrocket over the coming decades, the problem of delayed arrival and departure will intensify. The inefficiencies in the air and on the ground caused by the system also mean wastage of fuel and excessive emission of CO₂. No doubt, the air travel industry is coming under scrutiny for its role in climate change. Though the aviation industry contributes only 2% of the total C-emissions, with the rapid economic growth and ever increasing affordability of air travel, this industry will only expand at a much faster pace than ever before, thus increasing the rate of carbon emissions.

SubQuestion No : 8

Q.8 Which of the following statements is NOT true?

- Ans**
- ✔ 1. Aviation industry contributes only 20% of the total carbon emission.
 - ✘ 2. Every minute saved from a flight means fuel saved and carbon emission averted.
 - ✘ 3. Delayed departures and arrivals lead to wastage of fuel.
 - ✘ 4. Engines are kept running when planes await take off on the runway.

Comprehension:

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या.

ज्या निबिड आणि गगनचुंबी जंगलाबद्दल कारवार प्रसिद्ध आहे त्या जंगलाचा आरंभ हल्याळ पासून होतो. आम्ही हल्याळ सोडले आणि आमच्या प्रवासातील रोमहर्षक खंडाला प्रारंभ झाला. येथपासून सरळ कारवारपर्यंत नव्वद मैल एकसारखे लागून राहिलेले प्रचंड जंगल आलटून पालटून सागाचे आणि बांबूचे आहे. कोणते जंगल कोठे संपते आणि कोठून सुरू होते याचा अदमास लागत नाही. त्याखेरीज नाना जातींचे अनेक उत्तुंग वृक्ष या जंगलात गर्दी करून राहिले आहेत. बांबूचे जंगल सुरू झाले की मैल चे मैल बांबूच्या बेटांखेरीज काही आढळत नाही. एवढे बांबू लावले कोणी आणि त्यांची अवाढव्य वाढ झाली तरी कधी या विचाराने मस्तक गरगरू लागते.

या जंगलाचे वैशिष्ट्य म्हणजे बारीकसारीक झाडाझुडपांना उगवायला येथे वाव नसल्याने हा प्रचंड वृक्षसमूह असूनही त्यांची विशेष गुंतागुंत दिसत नाही. वृक्षांची मस्तके दीडशे फुटांवर एकमेकांत गुंतलेली असली तरी तळचा भाग विरळ आणि मोकळा आहे. सागाचे जंगल सुरू झाले आणि हजारी सरळसोट साग शिपायांच्या पलटणी प्रमाणे जिकडेतिकडे दिसू लागले आणि डोळे भांबावून गेले. असे विलक्षण दृश्य इतरत्र क्वचितच पहायला मिळेल असे मला वाटते.

SubQuestion No : 18

Q.18 हल्याळचे वैशिष्ट्य काय आहे?

- Ans
- 1. बारीकसारीक झुडुपे तेथे उगवत नाहीत.
 - 2. वृक्षांच्या मानाने त्यांचा तळचा भाग विरळ आहे.
 - 3. कारवारच्या जंगलाची सुरुवात येथून होते.
 - 4. तेथे वड आणि पिंपळाची जंगले आहेत.

Q.42 Select the INCORRECTLY matched project planning and controlling by PERT and CPM.

Ans 1.

PERT is related with activities of uncertain time and CPM is related with activities of well known time.

2.

CPM is a probabilistic model and PERT is a deterministic model.

3.

PERT is an event based method and CPM is an activity based method.

4.

CPM is developed by Morgan R Walker of DuPont and James E Kelley Jr and PERT is developed by the United States Navy.

Q.82 Which of the following condition or conditions is true for the identification of zero force member in a truss?

Condition-1: If three members meet at a joint, two of the members are colinear and there is no external force at the joint (applied or reaction), then the third member, out of necessity, must have a zero force.

Condition-2: If two members meet at a joint, they are not colinear and there is no external force at the joint, then out of necessity both member forces must be zero.

- Ans**
- 1. Both conditions are wrong
 - 2. Both conditions are true
 - 3. Condition- 1 is wrong and Condition-2 is true
 - 4. Condition -1 is true and Condition - 2 is wrong

Q.83 What is the purpose of providing rack railways?

Ans 1.

Rack railways are provided to avoid the locomotive train sliding down or slipping back along the downgrade when the gradient is much steeper than 3%.

2.

Rack railways are provided to avoid the locomotive train sliding down or slipping down at the crossing.

3.

Rack railways are provided to avoid the locomotive train sliding down or slipping down when the train is moving at a faster speed on a flat surface.

4.

Rack railways are provided to push the locomotive train by adding an additional engine when the gradient is much steeper than 3%.

Q.84 What is the crippling load (P) for the column whose one end is fixed and the other end is free?

Where E- Young's modulus of elasticity, I- Moment of inertia, l - is the unsupported length of column.

Ans

1. $P = \frac{\pi^2 EI}{l^2}$

2. $P = \frac{4\pi^2 EI}{l^2}$

3. $P = \frac{2\pi^2 EI}{l^2}$

4. $P = \frac{\pi^2 EI}{4l^2}$

Q.99 Match List-I (Laws) with List-II (Phenomena) and select the correct answer using the codes given below the lists:

Laws	phenomena
A. Hydrostatic law	1. Pressure at a point is equal in all directions in a fluid at rest.
B. Newton's law	2. The total energy at a point is constant.
C. Pascal's law	3. Rate of change of pressure in a Vertical direction is proportional to specific weight of fluid.
D. Bernoulli's law	4. Shear stress is directly proportional to velocity gradient in fluid flow.

- Ans
- 1. A-4; B-3; C-1; D-2
 - 2. A-3; B-4; C-1; D-2
 - 3. A-2; B-4; C-1; D-3
 - 4. A-3; B-1; C-4; D-2

Comprehension:

Read the given passage and answer the questions that follow.

Tom Sawyer found Monday morning miserable. He always found it so because it began another week's slow suffering in school. Tom lay thinking. Presently it occurred to him that he wished he was sick; then he could stay home from school. Here was a vague possibility. But no ailment was found. Suddenly, he discovered something. One of his upper front teeth was loose. This was lucky ; he was about to begin to groan, when it occurred to him that his aunt would pull it out, and that would hurt. So, he thought he would hold the tooth in reserve for the present, and seek further. Then he remembered hearing the doctor tell about certain things that threatened to make patients lose a finger. So, the boy eagerly drew his sore toe from under the sheet and held it up for inspection. It seemed worthwhile to chance it, so he fell to groaning with considerable spirit.

SubQuestion No : 8

Q.8 Select the most appropriate synonym of the word

'ailment'.

- Ans
- 1. Remedy
 - 2. Pretext
 - 3. Relief

Comprehension:

Read the given passage and answer the questions that follow.

Tom Sawyer found Monday morning miserable. He always found it so because it began another week's slow suffering in school. Tom lay thinking. Presently it occurred to him that he wished he was sick; then he could stay home from school. Here was a vague possibility. But no ailment was found. Suddenly, he discovered something. One of his upper front teeth was loose. This was lucky ; he was about to begin to groan, when it occurred to him that his aunt would pull it out, and that would hurt. So, he thought he would hold the tooth in reserve for the present, and seek further. Then he remembered hearing the doctor tell about certain things that threatened to make patients lose a finger. So, the boy eagerly drew his sore toe from under the sheet and held it up for inspection. It seemed worthwhile to chance it, so he fell to groaning with considerable spirit.

SubQuestion No : 9

Q.9 Why was Tom miserable on Monday morning?

- Ans
- 1. His loose tooth was hurting.
 - 2. He would have to go to school.
 - 3. He had to visit the doctor.
 - 4. He had a sore toe.

Comprehension:

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या.

शाळेचा पहिला दिवस म्हणजे रंगीबेरंगी छत्र्यांनी फुललेले आवार. त्यादिवशी प्रत्येक जण शाळेत येई तो आपली नवीन छत्री मिरवण्यासाठीच. आपल्या छत्रीची सर्वांनी स्तुती करावी म्हणून अधीर असणारं ते निरागस बालपण आणि 'माझीच छत्री सुंदर' असा विश्वास चेहऱ्यावर ठेवून दिमाखात चालणारी ती पाउले. एकदा का या छत्रीचे कौतुक सुरू झाले की गणवेश, वह्या, पुस्तकं असल्या वस्तूंचं कौतुक करतो कोण ?

माझ्या असंख्य आवडत्या वस्तूत या छत्रीचा नंबर पहिला, पण मला ती बालपणात खूप उशिरा मिळाली. पण मला समजत होतं की एकदा का मला छत्री घेतली की माझ्या दोन लहान भावंडांना सुद्धा ती घ्यावी लागणार. तरीही शाळेत जाणाऱ्या माझ्या धाकट्या भावाला आधी छत्री मिळाली. कारण आम्हा मोठ्या बहिणीचा समजूतदारपणा.

आमच्या लहानपणी छत्र्यांचे आकार दोनच ...एक लहान, दुसरा मोठा. रंग दोन किंवा तीन...लाल, काळा, निळा. त्यात आम्हाला वाईट वाटण्याचे कारण म्हणजे भावाला लाल रंगाचे छत्री आमच्या आधी मिळाली. पण तो मराठी शाळेतून घरी आला तो रडतच. आल्याआल्या त्याने छत्री फेकून दिली. त्याला शाळेत सगळ्यांनी 'मुलींची छत्री' म्हणून चिडवले होते.

SubQuestion No : 18

Q.18 भावाने पहिल्या दिवशीच छत्री फेकून दिली कारण....

- Ans
- 1. पावसात छत्री उलटी झाली होती.
 - 2. छत्रीचा रंग काळा होता.
 - 3. त्याला शाळेत चिडवले होते.
 - 4. छत्रीचा आकार मोठा नव्हता.

Q.60 In the design of RCC structures, the development Length (L_d) of Bar is calculated using which of the following formulas?

Where,

ϕ = nominal diameter of the bar,

σ_s = stress in bar at the section considered at design load, and

τ_{bd} = design bond stress

Ans

1. $L_d = \frac{\phi \tau_{bd}}{4\sigma_s}$

2. $L_d = \frac{3\phi\sigma_s}{4\tau_{bd}}$

3. $L_d = \frac{\phi\sigma_s}{4\tau_{bd}}$

4. $L_d = \frac{\phi\sigma_s}{\tau_{bd}}$

Q.77 A fixed beam shown in the figure carries a point load of 20 kN at the centre. How many contraflexure point exist and where does they position?

- Ans
- 1. One contraflexure point exists at exactly below 20 kN load.
 - 2. Zero contraflexure point exists and no position.
 - 3. Two contraflexure points exists at 1.5 m from A and B.
 - 4. Three contraflexure points exists at 1.5 m, 3 m and 4.5 m from point A.

Q.82 Which of the following is NOT a characteristic of a couple in engineering mechanics?

- Ans**
- 1.

The algebraic sum of the moments of the forces, constituting the couple, about any point is the same, and equal to the resultant of the couple itself.

- 2.

The algebraic sum of the forces, constituting the couple is zero.

- 3.

Any number of coplanar couples can be reduced to a single couple, whose magnitude will be equal to the algebraic sum of the moments of all the couples.

- 4.

A couple cannot be balanced by a single force but it can be balanced only by a couple of opposite sense.

Q.88 The cost of construction of an underground water tank of capacity 100 m^3 is ₹5,00,000. Find the unit rate/litre. Also, find the approximate cost of a similar water tank in the same area to store 2,50,000 litres.

Ans 1.

Unit rate per litre is ₹2.5 and the approximate cost for 250000 litres is ₹100,000.

2.

Unit rate per litre is ₹8 and the approximate cost for 250000 litres is ₹1,45,000.

3.

Unit rate per litre is ₹3.5 and the approximate cost for 250000 litres is ₹1,20,000.

4.

Unit rate per litre is ₹5 and the approximate cost for 250000 litres is ₹1,25,000.

Comprehension:

Read the given passage and answer the questions that follow.

A sparrow is a small bird which is found throughout the world. There are many different species of sparrows. Sparrows are only about four to six inches in length. Many people appreciate their beautiful song. Sparrows prefer to build their nests in low places – usually on the ground, clumps of grass, low trees and low bushes. In cities they build their nests in building nooks or holes. They rarely build their nests in high places. They build their nests out of twigs, grasses and plant fibres. Their nests are usually small and well-built structures. The sparrows are some of the few birds that engage in dust bathing. Sparrows first scratch a hole in the ground with their feet, then lie in it and fling dirt or sand over their bodies with flicks of their wings. They also bathe in water, or in dry or melting snow. Water bathing is similar to dust bathing, with the sparrow standing in shallow water and flicking water over its back with its wings, also ducking its head under the water. Both activities are social, with up to a hundred birds participating at once.

SubQuestion No : 8

Q.8 Where is a sparrow's nest most likely to be found in cities?

- Ans**
- ✓ 1. Building nooks
 - ✗ 2. High trees
 - ✗ 3. Water bodies
 - ✗ 4. Underground holes

Comprehension:

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या.

तो पंचवीस तीस वर्षांपूर्वीचा काळ, कोकणातल्या एका खेड्यातला. कोकण म्हणजे दुर्गम प्रदेश. दहावीला चांगले मार्क्स मिळाले की सायन्सला धाडले जाई. त्यात मुलींनी मिळवलेल्या चांगल्या मार्क्सचे शाळेत कौतुक असे. मुली घरातील सगळ्या कामांना हातभार लावून ते यश मिळवत असत. माझ्या देवगड गावात सायन्स कॉलेज नव्हते. आणि मला जिल्ह्याच्या ठिकाणी शिक्षणाला पाठवण्याची शक्यता खूप कमी होती. एक तर परिस्थिती बेताची आणि मुलींना बाहेर पाठवणे ही मानसिकताही नव्हती. तरी मी रत्नागिरीला शिक्षणासाठी गेले तेव्हा तो चर्चेचा विषय झाला. शहरात प्रथमच गेले, गांगरून जाणे साहजिकच होते. रस्ता ओलांडताना भीती वाटायची, कपड्यांची लाज वाटायची. कधीही मी कॉलेज सोडून पळून जाण्याच्या विचारात असे. पण लोक मला काय म्हणतील? या एकाच विचाराने मी तेथे तगून राहिले. त्यावेळी एक समजले की लोक काय म्हणतील याचा विचार करायचा नसतो. मला सायन्सची डिग्री मिळाली, पण प्रवेश घेताना मोठे वाटलेले शिक्षण आता तुटपुजे वाटू लागले. आपण शिक्षिका होऊ असे मनात देखील नव्हते, पण त्यात नोकरीची शाश्वती वाटली आणि मी बी.एड. करायचे ठरवले. तोपर्यंत माझ्या गावात बी एड कॉलेज निघाले होते. पुन्हा एक डिग्रीत भर पडली. आता नोकरीचा शोध! म्हणजे वगवण आणि निराशा.... तेव्हा मी किती हळवी झाले होते ते आठवले की आजही रडू फुटते. जुन्या शाळेत नोकऱ्या नव्हत्या, आणि नवीन शाळा गाडीच्या रस्त्यापासून दूर, डोंगरात होती. कुणकेश्वर हे माझ्या गावाजवळचे एक खेडेगाव, त्याच गावात मला नोकरी मिळाली. आज हे महत्त्वाचे पर्यटन स्थळ आहे.

SubQuestion No : 18

Q.18 दहावीनंतर लेखिका कॉलेजसाठी रत्नागिरीत गेली कारण....

- Ans
- 1. तिचे वडिल रत्नागिरीत नोकरी करत होते .
 - 2. तिला पुढे रत्नागिरीत बी एड कॉलेज मध्ये प्रवेश घ्यायचा होता.
 - 3. तिच्या गावात सायन्स कॉलेज नव्हते.
 - 4. लेखिकेला शिक्षिका व्हायचे होते.

Q.31 दिलेली माहिती काळजीपूर्वक वाचा आणि त्याखालील प्रश्नांची उत्तरे द्या. खालील शाळा मंडळाने इंटरमीडिएट बायो गटात प्रवेश घेण्यासाठी उमेदवारांसाठी खालील निकष निश्चित केले आहेत.

- उमेदवाराने हायस्कूल परीक्षेत किमान 80% गुण मिळवलेले असावेत.
- उमेदवाराला प्रवेश परीक्षेत किमान 60% गुण मिळालेले असावेत.
- उमेदवाराचे वय 1 जुलै 2022 रोजी किमान 15 वर्षे आणि जास्तीत जास्त 22 वर्षे असावे.
- जिल्हास्तरीय शालेय स्पर्धेत खेळलेल्या उमेदवाराला उच्च वयोमर्यादित तीन वर्षांची सूट दिली जाईल.
- उच्च वयोमर्यादा ओलांडलेली परंतु दिलेल्या कट ऑफ तारखेला 24 वर्षांपेक्षा जास्त वय नसलेली स्त्री उमेदवार प्रतीक्षा यादीत समाविष्ट केले जाईल.

वरील निकषांच्या आधारे खालील उमेदवाराची उमेदवारी निश्चित करा आणि योग्य पर्याय निवडून तुमच्या उत्तरावर खूण करा.

रिनाचा जन्म 1999 मध्ये झाला असून तिचा शैक्षणिक रेकॉर्ड खूप चांगला आहे. ती जिल्हास्तरीय बास्केटबॉल खेळाडू आहे आणि तिने राज्यस्तरीय चॅम्पियनशिपमध्ये तिच्या जिल्ह्याचे प्रतिनिधित्व केले आहे. तिने तिची हायस्कूल परीक्षा 90% गुणांसह उत्तीर्ण केली आणि 85% पेक्षा जास्त गुणांसह ती प्रवेश परीक्षेसाठी पात्र ठरली आहे.

Ans 1. प्रवेश दिला जाईल.

2. प्रवेश दिला जाणार नाही.

3. उमेदवाराला प्रतीक्षायदीत समाविष्ट केले जाईल.

4. माहिती अपुरी आहे.

Q.39 रोहितच्या वडलांनी त्याच्यासाठी पाच कप्पे असलेले एक कपाट विकत घेतले. रोहनने त्या कपाटाच्या प्रत्येक कप्प्याला एक विशिष्ट क्रमांक दिला आहे, जसे की सर्वात वरच्या कप्प्याला 1 हा क्रमांक आणि सर्वात खालच्या कप्प्याला 5 हा क्रमांक दिला आहे. त्याने त्याच्या सर्व वैयक्तिक वस्तू अशाप्रकारे मांडल्या आहेत जेणेकरून एक वस्तू एका कप्प्यावर ठेवली जाईल. स्टेशनरी असलेल्या कप्प्याच्या बरोबर खाली असलेल्या कपड्यांच्या कप्प्याच्या बरोबर खाली पुस्तके ठेवली आहेत. खेळणी ही पुस्तकांच्या आणि चपलांच्या बरोबर मधोमध आणि कपडे असलेल्या कप्प्याच्या तीन कप्पे खाली ठेवली आहेत. 4थ्या कप्प्यावर कोणती वस्तू ठेवली आहे?

- Ans
- 1. कपडे
 - 2. पुस्तके
 - 3. खेळणी
 - 4. साहित्य

Comprehension:

Read the given passage and answer the questions that follow.

A Nobel Prize is considered by most people as one of the highest international honours a person can receive. The prizes were started by a Swede called Alfred Nobel. Alfred Nobel was born in Stockholm, the capital of Sweden, and lived from 1833 to 1896. Alfred Nobel was a chemist and inventor. He made two important inventions, and so he became very rich. However, Nobel was not a happy man. He never married or had children. Also, he was a sick man for a large part of his life. Nobel died at the age of sixty-three. When he died, he left a fund of \$9,000,000. The money was to be used in giving prizes to those who made outstanding achievements in physics, chemistry, medicine, literature and the promotion of world peace.

The first Nobel Prizes were given on 10 December 1901, five years after Nobel's death. Each Prize has three parts. The first part is a gold medal. Second, the winner of a Nobel Prize is given a diploma saying that he/she has been given the Prize. The third part of the Prize is a large amount of money.

SubQuestion No : 8

Q.8 After his death, Alfred Nobel left his money:

- Ans
- 1. to the hospital where he received treatment
 - 2. to his wife and children
 - 3. to award Nobel Prizes to outstanding achievers
 - 4. to the University of Stockholm

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या

लंडनमध्ये सप्टेंबर, ऑक्टोबरनंतर जवळजवळ रोज पाऊस पडायचा, आणि माझ्या ओळखीचे सर्व लंडनवासी पावसाला शिव्या देत असायचे. मला त्या पावसाची मोठी मौज वाटे. वाटेत चिखल नाही, मजेदार गारवा आणि 4,5 मैल चालूनही थकवा नाही. घरून वर्तमानपत्रे यायची, त्यात महाराष्ट्रातल्या दुष्काळाची वर्णने, नगरच्या लोकांची न संपणारी पाण्याची कटकट! —कोणी म्हणाले की तुम्ही कशा पावसाला कंटाळत नाही? मी उत्तर देई की, जगात कोठेतरी असा पाऊस पडतो व कायम हिरवेगार राहते याचे मला फार कौतुक वाटते.

नुसता पाऊसच नाही, तर लंडनची सर्वच सृष्टी इकडच्या उलटी. आपल्याकडे धुके म्हटले की काही तरी मजेदार संवेदना मनाला होते. पावसाने धुवून काढलेले प्रसन्न आकाश, सकाळची व संध्याकाळची पडू लागलेली थंडी, दहा मैल लांबचे दिसावे असे स्वच्छ वातावरण, आणि त्यात थोडा वेळ मात्र राहणारा, दृष्टीला चकवणारा धुक्याचा पडदा..... असे आपल्याकडेचे धुके. सकाळी उठून पहावे तर महाबळेश्वरी किंवा सिंहगडावर खालील दरी धुक्याने भरलेली असते— तेवढ्यात सूर्य उगवावा, की त्या धुक्यावर इंद्रधनुष्ये उमटतात आणि थोडावेळ इतस्ततः पळून, सूर्य वर आला की धुके पार नाहीसे होऊन गवताच्या पातीपातींवर अनंत दवबिंदू कोटिसूर्य प्रतिबिंबित करतात.

लंडनचे धुके काही औरच असते. वर्षाचे 10 दिवस सुद्धा आकाश निरभ्र नसते.

Chosen Option : **1**

Q.48 Which of the following structural elements is classified as an indeterminate structure?

- Ans**
- 1. Simply supported beam
 - 2. Three hinged arch
 - 3. Cantilever beam
 - 4. Continuous beam

Question Type : **MCQ**
Question ID : **387868791**
Option 1 ID : **3878683100**
Option 2 ID : **3878683099**
Option 3 ID : **3878683097**
Option 4 ID : **3878683098**
Status : **Answered**
Chosen Option : **4**

Q.49 The coefficient of permeability and coefficient of percolation of a soil are 1×10^{-3} cm/s and

2×10^{-3} cm/s, respectively. What will be the void ratio of the soil sample?

- Ans
- 1. 0.4
 - 2. 0.5
 - 3. 2.5
 - 4. 1

Question Type : MCQ
Question ID : 387868806
Option 1 ID : 3878683160
Option 2 ID : 3878683159
Option 3 ID : 3878683158
Option 4 ID : 3878683157
Status : Answered
Chosen Option : 4

Q.50 The total residual shrinkage strain due to shrinkage of concrete in a pre-tensioned member is _____.

- Ans
- 1. 6.5×10^{-4}
 - 2. 4.5×10^{-4}
 - 3. 3×10^{-4}
 - 4. 5.5×10^{-4}

Question Type : MCQ
Question ID : 387868781
Option 1 ID : 3878683060
Option 2 ID : 3878683058
Option 3 ID : 3878683057
Option 4 ID : 3878683059
Status : Answered
Chosen Option : 3

Q.51 Which of the following survey types follows operations such as radiation, intersection, traversing and resection?

- Ans
- 1. Chain surveying
 - 2. Compass surveying
 - 3. Plane table surveying
 - 4. Tacheometric surveying

Question Type : MCQ
Question ID : 387868789
Option 1 ID : 3878683089
Option 2 ID : 3878683090
Option 3 ID : 3878683091
Option 4 ID : 3878683092
Status : Answered

Q.52 The unit of coefficient of permeability is usually expressed in:

- Ans
- 1. kN/cm^2
 - 2. mm^2/s
 - 3. m^2/kN
 - 4. m/day

Question Type : MCQ
Question ID : 387868805
Option 1 ID : 3878683154
Option 2 ID : 3878683155
Option 3 ID : 3878683156
Option 4 ID : 3878683153
Status : Answered
Chosen Option : 4

Q.53 The instruments such as Venturi meter, current meter and piezometer measure _____, respectively.

- Ans
- 1. flow pressure, flow rate and flow velocity
 - 2. flow rate, flow velocity and flow pressure
 - 3. flow pressure, flow velocity and flow rate
 - 4. flow velocity, flow rate and flow pressure

Question Type : MCQ
Question ID : 387868804
Option 1 ID : 3878683151
Option 2 ID : 3878683149
Option 3 ID : 3878683150
Option 4 ID : 3878683152
Status : Answered
Chosen Option : 2

Q.54 According to the PIEV theory, the time required for the driver to understand the situation, compare different thoughts, re-group and register new sensations during driving a vehicle on road is called _____.

- Ans
- 1. volition time
 - 2. emotion time
 - 3. intellection time
 - 4. perception time

Question Type : MCQ
Question ID : 387868809
Option 1 ID : 3878683172
Option 2 ID : 3878683171
Option 3 ID : 3878683170
Option 4 ID : 3878683169
Status : Answered
Chosen Option : 3

Q.55 A good brick-earth should contain about _____ of silica.

- Ans
- 1. 1% to 5%
 - 2. 90% to 94%
 - 3. 20% to 25%
 - 4. 50% to 60%

Question Type : MCQ

Question ID : 387868758

Option 1 ID : 3878682965

Option 2 ID : 3878682968

Q.59 What is meant by optimum water content?

- Ans
- 1. Water content corresponding to field density
 - 2. Water content corresponding to zero air voids
 - 3. Water content corresponding to the maximum dry density
 - 4. Water content corresponding to the minimum dry density

Question Type : MCQ

Question ID : 387868807

Option 1 ID : 3878683164

Option 2 ID : 3878683162

Option 3 ID : 3878683161

Option 4 ID : 3878683163

Status : Answered

Chosen Option : 3

Q.60 Identify the type of force system shown in the figure below.

- Ans
- 1. Coplanar force system
 - 2. Parallel force system
 - 3. Collinear force system
 - 4. Non-concurrent force system

Question Type : MCQ

Question ID : 387868760

Option 1 ID : 3878682973

Option 2 ID : 3878682975

Option 3 ID : 3878682976

Option 4 ID : 3878682974

Status : Answered

Chosen Option : 1

Q.61 _____ is the method of population forecast, which assumes that the percentage increase in population from decade to decade is constant.

- Ans
- 1. Arithmetic increase method
 - 2. Incremental increase method
 - 3. Subtractive decrease method
 - 4. Geometrical increase method

Question Type : MCQ

Question ID : 387868813

Option 1 ID : 3878683185

Option 2 ID : 3878683187

Option 3 ID : 3878683186

Option 4 ID : 3878683188

Status : Answered

Chosen Option : 4

Q.62 If a uniformly varying load with a certain varying intensity is acting on a beam for a particular span, the variation (shape) of the bending moment will be _____.

- Ans**
- 1. linear
 - 2. semicircular
 - 3. cubic parabola
 - 4. parabolic

Question Type : **MCQ**

Question ID : **387868765**

Option 1 ID : **3878682993**

Option 2 ID : **3878682996**

Option 3 ID : **3878682995**

Option 4 ID : **3878682994**

Status : **Answered**

Chosen Option : **3**

Q.63 Which of the following cement types can be stored in cold weather conditions, for a longer duration (comparatively), without getting its desirable properties impaired?

- Ans**
- 1. Rapid hardening Portland cement
 - 2. Hydrophobic cement
 - 3. Quick set cement
 - 4. Ordinary Portland cement

Question Type : **MCQ**

Question ID : **387868759**

Option 1 ID : **3878682972**

Option 2 ID : **3878682970**

Option 3 ID : **3878682969**

Option 4 ID : **3878682971**

Chosen Option : **2**

Q.64 Which of the below-mentioned statements is/are correct?

Statement A: If the total float and duration of an activity are 5 days and 20 days, respectively, the particular activity should be finished within 25 days.

Statement B: If the total float and duration of an activity are 5 days and 15 days, respectively, the particular activity can be completed 15 days later.

- Ans**
- 1. Statement A is correct and Statement B is incorrect.
 - 2. Both the statements are correct.
 - 3. Statement B is correct and Statement A is incorrect.
 - 4. Both the statements are incorrect.

Question Type : **MCQ**

Question ID : **387868786**

Option 1 ID : **3878683077**

Option 2 ID : **3878683079**

Option 3 ID : **3878683078**

Option 4 ID : **3878683080**

Status : **Answered**

Chosen Option : **1**

Q.65 Find the total depth (delta) of the water required for a crop if the duty for a base period of 2400 hours is 900 hectares/cumec.

- Ans**
- 1. 105 cm
 - 2. 96 cm
 - 3. 80 cm
 - 4. 112 cm

Question Type : **MCQ**

Question ID : **387868797**

Option 1 ID : **3878683123**

Option 2 ID : **3878683122**

Option 4 ID : **3878683124**

Status : **Answered**

Chosen Option : **2**

Q.66 Which of the following members is an example of a post-tensioned structure?

- Ans**
- 1. Partition wall
 - 2. Railway sleeper
 - 3. Electric pole
 - 4. Bridge girder

Question Type : **MCQ**

Question ID : **387868783**

Option 1 ID : **3878683067**

Option 2 ID : **3878683066**

Option 3 ID : **3878683065**

Option 4 ID : **3878683068**

Chosen Option : **4**

Q.67 In which type of estimate should each item of the project be broken down into its parts and estimated?

- Ans
- ✓ 1. Detailed estimate
 - ✗ 2. Model estimating
 - ✗ 3. Square foot estimate
 - ✗ 4. Assembly estimating

Question Type : MCQ
Question ID : 387868796
Option 1 ID : 3878683118

Status : Answered
Chosen Option : 1

Q.72 Which of the below-mentioned statements is/are correct?

Statement A: Natural processes convert carbon monoxide into some other compounds that are not harmful.

Statement B: Carbon monoxide is a permanent air pollutant.

- Ans
- 1. Both the statements are incorrect.
 - 2. Statement A is correct and Statement B is incorrect.
 - 3. Both the statements are correct.
 - 4. Statement B is correct and Statement A is incorrect.

Q.80 A certain crop is grown in an area of 3000 hectares, which is fed by a canal system. The data pertaining to irrigation is as follows:

1. Field capacity of soil = 30%
2. Optimum moisture = 15%
3. Effective depth of root zone = 80 cm
4. Relative density of soil = 1.400

If the frequency of irrigation is 10 days and permanent wilting point = 10%, then find the daily consumptive use.

- Ans**
- 1. 36.2 mm
 - 2. 16.8 mm
 - 3. 7.6 mm
 - 4. 29.4 mm

Status : **Answered**

Chosen Option : **4**

Q.84 Which of the following expressions is correct to calculate equilibrium super elevation in roads?

Here, 'e' is the rate of super elevation, 'f' is the design value of lateral friction, 'V' is the speed of the vehicle (in m/s), 'R' is the radius of the curve (in m) and 'g' is the acceleration due to gravity.

Ans

✗ 1. $e + f = \frac{V}{2gR}$

✗ 2. $e + f = \frac{V^2}{2gR}$

✗ 3. $e + f = \frac{V^3}{2gR}$

✓ 4. $e + f = \frac{V^2}{gR}$

Comprehension:

Read the given passage and answer the questions that follow.

In Spain, children and their families are riding bikes to school together in large groups. The program is called 'bicibús' or bike bus. In Barcelona, the program started recently with only five children and grew quickly to hundreds of riders.

In the Eixample area of Barcelona, a group of five children began biking to school with their parents on Fridays. Soon the group grew to 150 or more. The bike bus begins around 8:25 every Friday morning.

The path it follows is always posted ahead of time, so everyone knows where to join. Instead of riding in bike lanes or on sidewalks, the bicibús takes over the entire street. The commuting time of bikers takes about 25 minutes. And with the ever-growing cycling and skating kids taking part in this bike bus culture, the local police are helping stop traffic by riding in front of the bicibús and behind it.

This further makes the parents happy that with the additional security their children will commute safely to school. With music playing and bike bells ringing, the bicibus feels like a party. Parents are hoping that the bicibus will help change ideas about how people can get around in the city. They want the city to create wider, kid-friendly bike lanes that are separate from car traffic. They point out that the bicibús also helps cut down on pollution.

SubQuestion No : 8

Q.8 What more do parents expect for the safety of their kids going to school?

- Ans
- 1. Wider bike lanes for kids without car traffic
 - 2. Total prohibition of traffic on the roads
 - 3. Police escorting kids to and from school daily
 - 4. No pollution on the entire bicibus route

दिलेला उतारा वाचा आणि पुढील प्रश्नांची उत्तरे द्या.

आपल्या परिसराचा नकाशा बहुतेक सर्व पक्षी आपल्या डोक्यात साठवून ठेवतात. 'हनी गार्ड' नावाचा चिमणीसारखा पक्षी त्याच्या परिसरातील सगळ्या मधाच्या पोळ्यांचा आराखडा त्याच्या डोक्यात बाळगून असतो. कारण मधमाशांच्या पोळ्यातील अळ्या हे त्याचे अतिशय आवडते खाणे आहे. पण पोळ्यावर हल्ला करून ते मिळवणे त्याला शक्य होत नाही. मग तो त्यासाठी पोळ्यातील मध खाणाऱ्या अस्वलासारख्या प्राण्याशी सहकार्य करतो. तो त्या प्राण्याला मधमाशांच्या पोळ्याचा मार्ग दाखवतो. त्याने पोळे काढून मध खायला सुरुवात केली की हा पोळ्याच्या तुकड्यातल्या मधमाशांच्या अळ्यांवर ताव मारतो. हा पक्षी केवळ प्राण्यांनाच नव्हे तर माणसांनाही पोळ्याकडे घेऊन जातो. तसेच टिटवी हा सुद्धा हुशार पक्षी आहे. आपल्या घरट्याच्या दिशेने येणाऱ्या शत्रूला फसवून भलत्याच दिशेने घेऊन जाण्यात टिटवीसारखे जमिनीवर घरटे बांधणारे पक्षी माहीर असतात. कोल्ह्यासारखे प्राणी त्याची अंडी, पिल्ले खायला आले की त्यांना हूल देण्यासाठी ते स्वतःच्या घरट्यापासून दूर जातात आणि जोरात ओरडत राहतात. त्यामुळे कोल्हा त्यांना पकडायला घरट्यापासून दूर जातो. आणि त्यांच्या मागोमाग येतो. टिटवीची पिल्ले सुरक्षित राहतात.

SubQuestion No : 20

Q.20 यात कोणकोणत्या पक्ष्यांबद्दल विशेष माहिती आहे?

- Ans
- 1. चिमणी, टिटवी
 - 2. टिटवी, हनी गार्ड
 - 3. टिटवी, मधमाशी
 - 4. हनी गार्ड, चिमणी

Q.40

दिलेली माहिती काळजीपूर्वक वाचा आणि त्याखालील प्रश्नांची उत्तरे द्या.

विपणन (मार्केटिंग) व्यवस्थापकाच्या भरतीसाठी, कंपनीने खालील निकष ठरवले आहेत.

उमेदवार:

- A. किमान ६०% गुणांसह पदवीधर असावा.
- B. मार्केटिंगमध्ये किमान ७०% गुणांसह एमबीए उत्तीर्ण असावा.
- C. लेखी परीक्षेत 50% किंवा त्यापेक्षा जास्त गुण मिळालेले असावेत.
- D. 22 जुलै 2022 रोजी वय 32 वर्षांपेक्षा जास्त नसावे.
- E. जर उमेदवाराचे वय 32 वर्षांपेक्षा जास्त असेल परंतु 35 वर्षांपेक्षा कमी असेल आणि तो/ती आर्थिकदृष्ट्या मागास प्रवर्गातील असेल, तर त्याला परिवीक्षेवर (प्रोबेशन) ठेवले जाऊ शकते.

वरील माहितीच्या आधारे, खालील उमेदवार भरती प्रक्रियेसाठी पात्र आहे की नाही हे ठरवा आणि दिलेल्या पर्यायांमधून तुमचे उत्तर निवडा. दिलेल्या माहितीशिवाय दुसरे काहीही गृहीत धरू नये.

सुजाता केंद्र सरकारने अधिसूचित केल्यानुसार आर्थिकदृष्ट्या मागासवर्गीय कुटुंबातील आहे. ती ७३% गुणांसह वाणिज्य शाखेची पदवीधर आहे. तिने एमबीए परीक्षेची सर्व सत्रे ७०% पेक्षा जास्त गुणांसह पूर्ण केली आहेत. तिने लेखी परीक्षेत ५५% गुण मिळवले आहेत. तिचा जन्म 20 जुलै 1990 रोजी झाला.

- Ans
- 1. उमेदवाराला परिवीक्षेवर (प्रोबेशन) ठेवले जाईल.
 - 2. माहिती पुरेशी नाही.
 - 3. उमेदवाराची नियुक्ती केली जाणार नाही.
 - 4. उमेदवाराची नियुक्ती केली जाईल.

Chosen Option : **3**

Q.61 Which of the below-mentioned statements is/are correct?

Statement A: Slack time is an interval that occurs when there are activities that can be completed before the time when they are actually needed.

Statement B: Slack time is an interval that occurs when there is delay in the completion of activities compared to the scheduled time.

- Ans**
- 1. Both the statements are incorrect.
 - 2. Both the statements are correct.
 - 3. Statement A is correct and Statement B is incorrect.
 - 4. Statement B is correct and Statement A is incorrect.
